The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest, either singularly or in combination, at least the limitation "a conductive layer formed on a surface of the integrated circuit and operatively coupled to the isolation buried layer at a plurality of points spaced throughout the buried layer, the conductive layer reducing an effective lateral resistance of the isolation buried layer to thereby increase an electrical isolation between the first and second circuit section; wherein the conductive layer comprises a plurality of conductive traces, the conductive traces intersecting with and connecting to one another to form a net".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
